1
Here`s something of little importance,
some few tiny trifles in portions:
Our lives bring no justice as some folks think,
the highlight you watched for became a blink.
There`s always a hindrance that stifles,
some few, some blue ... tiny trifles.

2
Coincidence made you a "no-one"
with ev`ryday`s duties to go on.
You know pretty well whom you`d want as twin.
To stand on the doorstep and don`t get in
is merely a "something" that stifles,
some few, some blue ... tiny trifles.

3
You see that you`re still a beginner.
There`s always and ever a winner.
The sweetness you went for is more like salt.
What`s somebody`s credit is someone`s fault.
There`s always a detail that stifles,
some few, some blue ... tiny trifles.

4
But think of the champ you admire,
he`s trapped in success and desire
with focus on progress and "why?" and "how?",
he can`t give a minute as we do now
and join the most comfy diciples
with few, some blue ... tiny trifles.
